

**Gavin W. Manes, Ph.D.**

Short Biography – July 2006

Gavin W. Manes brings extensive knowledge in the field of digital forensics to his position of president of Oklahoma Digital Forensics Professionals Inc. Manes received his doctorate in computer science from the University of Tulsa, where he now works as research assistant professor. Since 1996, Manes has specialized in the fields of information assurance, computer security, and digital forensics at the Center for Information Security at TU. He has also published papers, journal articles, and congressional testimony in the areas of information assurance, digital forensics, and telecommunications security.

Manes has briefed the White House, National Security Council, and the Pentagon. In addition, he has all five National Information Assurance Education and Training Program federal information assurance certifications from the Committee on National Security Systems and the National Security Telecommunications and Information Systems Security Instruction. Manes has also worked closely with many local, state, and federal law enforcement agencies.

Manes maintains memberships in the American Academy of Forensic Sciences, High Tech Crime Investigation Association, Digital Forensics Working Group, Association of Computing Machinery, Oklahoma Infragard, Information Systems Security Association, and the American College of Forensic Examiners Institute.
