

Terry L. Watt is a shareholder and director in the Tulsa office of the law firm of Fellers, Snider, Blankenship, Bailey, & Tippens. He received a Bachelor's degree in Mathematics, an M.B.A. in Finance, a Ph.D. in Geophysics, and his Juris Doctorate degrees from the University of Tulsa. He holds a Masters degree in Statistics from Princeton University.

He is a registered to practice before the U.S. Patent and Trademark Office as a patent attorney and he concentrates his practice in the field of intellectual property law (i.e., copyright, patent, trademark, trade secret, and unfair competition), and especially intellectual property law as it pertains to technology matters.

Prior to becoming an attorney, Dr. Watt worked for 15 years as a research scientist / programmer in the oil industry. During his career in research, he was the author of several technical publications related to robust / non-linear signal processing. He left the oil business in 1992 to pursue a law degree and during the time that he was in law school he worked as a Unix system administrator for a local oil company. He has also has authored one book which has as its subject matter a topic in the field of music.

He has taught a variety of graduate and undergraduate technical courses at the university level including, calculus, differential equations, business statistics, stochastic systems, exploration geophysics, signal processing, and statistics and the law. Dr. Watt is currently an adjunct professor in the University of Tulsa College of Law and teaches Trademark Law and Patent Law in rotation.

He is a regular lecturer for the Oklahoma Bar Association on intellectual property topics. He is a past president of the Intellectual Property Law section of the Oklahoma Bar Association and a member of the board of directors of the section.

Dr. Watt is licensed to practice as an attorney in Oklahoma and is a member of the American and Oklahoma Bar Associations, the Intellectual Property Law Association, the American Statistical Association, and the Society of Exploration Geophysicists.
